SYMPOSIUM

DEEPEGS

How to enhance deep geothermal well productivity?

6-7 November 2019

*International symposium,
BRGM in Orléans, FRANCE*

The symposium aims at discussing new approaches and methods to enhance and to assess the improvement of the well productivity in the field of deep geothermal reservoirs. There will be a strong focus on tight geothermal reservoir and low permeability formations.

It is an Horizon 2020 event of the DEEPEGS project on three streams:

- **Well design, drilling & completion** : Designing the well to optimise the connection with the reservoir
- **Enhancement technologies and methods** : Challenges and solutions to enhance the productivity index of the wells
- **Well performance prediction and assessment** : Assessing the efficiency of the well enhancement

VENUE

The DEEPEGS Symposium will be held at the BRGM, the French national geological survey in Orléans (FRANCE).

KEY DATES

Registration	1st July
Abstract submission opens	1st July
Abstract submission deadline	15th Sept.
Abstract acceptance notifications	14 Oct.
Registration deadline	20 Oct.

REGISTRATION

LIMITED ATTENDEES

The full 2 days Symposium Pass is free of charge.

It includes:

Access to all two days conferences (6-7/11/2019)

Lunch and Coffee breaks on 6-7 /11/2019

Ice-breaker cocktail on Tuesday 5/11/2019

Banquet dinner on Wednesday 6/11/2019
